LEAD 1 — DURBAN KIDS HAIR SALON

39,000 followers | Mobile kids hair salon | Durban CBD

Phone/WhatsApp	+27 84 333 5505
Location	333 Anton Lembede Street, Durban, 4000
Service	Kids hair — studio visit OR house call bookings
Gap	No website. 39K followers with zero booking system. Clients DM to book — slow, messy, missed appointments.
Best channel	WhatsApp first, then call if no reply in 48h

❑ WHATSAPP MESSAGE — COPY & PASTE

Hi ☐ I'm Andile from Proaxis Solutions, a digital agency based in Durban.

I came across Durban Kids Hair Salon on Facebook – 39,000 followers on a mobile kids' hair service is seriously impressive. You've clearly built something parents trust.

Here's what I noticed though: there's no way to book online right now. A parent has to scroll your posts, find your page, DM you, wait for a reply – and if you're in the middle of a house call, that booking might go to someone else.

We build booking websites specifically for mobile and beauty businesses like yours – where a client picks "studio or house call," chooses a date, and the booking pops straight into your WhatsApp as a structured request. No more back-and-forth. No missed messages.

Cost: R8,000 once-off, live in 1-3 weeks.

Can't do it all upfront? We offer a 3-month plan – R3,000 now, then R2,750 x 2. Work starts the day the first payment lands.

Worth a quick 10-minute call this week? I'd love to show you exactly what the booking flow looks like.

Hi Durban Kids Hair Salon ☐

I'm Andile from Proaxis Solutions – we're a digital agency based right here in Durban.

I've been following your page and your work is brilliant. 39K followers for a mobile kids' salon is a real achievement – that kind of trust takes years to build.

What I noticed is that there's no booking page. Parents who want to book have to DM you, wait, go back and forth – and if you're busy doing a house call, they might not hear back and go elsewhere.

A simple booking website would fix that instantly: studio vs house call option, calendar, straight to your WhatsApp as a confirmed booking. R8,000 once-off, or split into 3 payments (R3,000 to start). Live in 1-3 weeks.

If timing works, fill in our 2-min form here so I can prep something specific for your salon:
proaxisolutions.co.za

Or just reply here and we can set up a quick call 😊

LEAD 2 — COMFORT FOOD CATERING

10,000 followers | Kosher catering | Durban-wide

Phone/WhatsApp	+27 73 968 4243
Location	Durban, South Africa (serves all over Durban)
Service	Kosher catering for functions
Gap	No website. Zero Google reviews. Catering is a SEARCH business — people Google "kosher catering Durban" before they check Facebook. Currently invisible on Google.
Best channel	WhatsApp first, then call

☐ WHATSAPP MESSAGE — COPY & PASTE

Hi, this is Andile from Proaxis Solutions ☐

I came across Comfort Food Catering on Facebook — 10,000 followers as Durban's kosher catering specialist is a really solid position to be in.

The gap I spotted: when someone in Durban searches "kosher catering" or "catering for a wedding Durban" on Google — you don't appear. No website, no Google Business listing, no reviews. So every new client has to already follow you on Facebook to find you. That's a big slice of the market you're not reaching at all.

We build catering websites — your packages, menus, pricing, event enquiry form, and full Google Business setup so you start showing up in local searches. R8,000 once-off, live in 1-3 weeks.

If budget is a concern, we split it: R3,000 to start, R2,750 x 2 over 60 days. Work begins on day one of the deposit — but no deposit, no start. Simple as that.

Can we do a 10-minute call? I can literally show you what your Google search result would look like if we build this.

☐ CALL SCRIPT (IF NO WHATSAPP REPLY AFTER 48H)

Hi, is this Comfort Food Catering?

Great — my name's Andile, I'm calling from Proaxis Solutions, a digital agency in Durban. I sent you a WhatsApp a couple of days ago — I came across your page on Facebook and wanted to chat about your online visibility.

Quick question: when someone Googles "kosher catering Durban" right now — do you show up?

[Wait for answer]

That's exactly what I wanted to talk about. We've helped catering businesses like yours get onto Google and start converting search traffic into real enquiries. Takes 1-3 weeks and costs R8,000 — or we can break it across 3 months.

Do you have 10 minutes this week for a quick call?

LEAD 3 — FIKILE BEAUTY SPA & HAIR SALON

9,700 followers | Nails, lashes, wigs, hair | Durban

Phone/WhatsApp	+27 60 465 6989
Email	fikilecynthia16@yahoo.com
Service	Brazilian hair, wigs, nails, eyelashes
Gap	No website. Pricing not clearly listed. Customers DM to ask prices and availability — massive time drain. A service menu + booking page would automate this entirely.
Best channel	WhatsApp (primary), Email (follow-up)

☐ WHATSAPP MESSAGE — COPY & PASTE

Hi Fikile ☐ I'm Andile from Proaxis Solutions, a digital agency in Durban.

I found your page online — nearly 10,000 followers across nails, wigs, lashes and hair is a serious following. You're clearly doing something right.

Here's something that stood out: your prices and availability aren't in one place. So every client who wants to know what a Brazilian or a set of nails costs has to DM you and wait for a reply. Multiply that by 10K followers and that's a lot of your time taken up just answering the same questions.

A simple website fixes this completely — all your services listed with pricing, a WhatsApp booking button so clients book directly into your schedule, and a Google presence so new clients in your area find you first.

R8,000 once-off. Live in 1-3 weeks. If that's a stretch right now, we do a 3-payment plan — R3,000 upfront (work starts immediately), then R2,750 x 2. If a payment is missed, work pauses — we keep it simple and fair for both sides.

Worth a quick call? I can prep a mock-up of your service menu page before we even speak.

Subject: Fikile Beauty Spa — 10K followers, but are clients finding you on Google?

Hi Fikile,

My name's Andile from Proaxis Solutions – we're a digital agency based in Durban.

I came across your Facebook page and I was genuinely impressed – nearly 10,000 followers for a beauty spa covering nails, wigs, lashes and hair is a real achievement.

What I noticed is that right now, all of that lives only on Facebook. There's no website, no Google listing, no central place where a client can see your full service list with prices and book directly. Every enquiry has to come through DMs – which takes up a huge amount of your time for something that could be automated.

Here's what we'd build for you:

- A clean service menu page – every treatment, with pricing
- A WhatsApp booking button that sends confirmed bookings straight to your phone
- Google Business setup so new clients in your area find you when they search
- All done in 1-3 weeks

Investment: R8,000 once-off. We also offer a 3-month payment plan: R3,000 to start, then two payments of R2,750. Work starts on receipt of the deposit – no deposit, no start.

I'd love to put together a quick mock-up of what your website could look like and show you on a 10-minute call. Would that be worth your time this week?

Best,

LEAD 4 — KAY'S FITNESS

7,500 followers | Personal training, coaching, nutrition | Durban North

Contact	Facebook DM / WhatsApp button on page
Facebook	facebook.com/profile.php?id=100063540005214
Location	Durban North, KwaZulu-Natal
Service	Personal training, body building coaching, diet & nutrition
Gap	No website. 7.5K followers but no way to see packages, pricing, or book a session online. Personal trainers need credibility — a website with testimonials, a package page, and a booking form builds that instantly.
Best channel	Facebook DM (no public number available)

□ FACEBOOK DM — COPY & PASTE

Hey Kay ▫ I'm Andile from Proaxis Solutions – digital agency based in Durban.

Found your page and I have to say – 7,500 followers for a personal training business is solid. Coaching, bodybuilding, nutrition – you've got a full service offering.

Here's what I noticed: there's no website. So anyone thinking about hiring a personal trainer has to find your Facebook page, scroll through posts to understand what you offer, figure out your pricing (which isn't clearly listed anywhere), and then DM to enquire. That's a lot of steps – and a lot of potential clients drop off before they even message you.

A simple website would change that: a clear packages page (e.g. 1-on-1, group, online coaching), pricing, client transformation photos, and a WhatsApp "Book a Session" button. New clients come to you ready to buy instead of needing to be convinced from scratch.

R8,000 once-off, live in 1-3 weeks. Or we split it: R3,000 to start, then R2,750 x 2 over 2 months – work starts the day the first payment clears.

Would you be open to a quick 10-minute call? I can build a mock-up of a fitness coaching website before we even chat so you can see exactly what it would look like.

LEAD 5 — MAMNGUNI DECOR & EVENTS HIRE

6,600 followers | Wedding & events decor | Durban

WhatsApp	+27 83 301 1186
Location	Durban, South Africa
Service	Event and wedding decor hire — classy, all events
Gap	Their entire "catalogue" is a WhatsApp link. No portfolio website, no quote request form. Brides and event planners compare suppliers — a WhatsApp catalogue loses to a proper website every time.
Best channel	WhatsApp

❑ WHATSAPP MESSAGE — COPY & PASTE

Hi, I'm Andile from Proaxis Solutions — we're a digital agency in Durban ☺

I came across MaMnguni Decor & Events on Facebook — 6,600 followers and your decor work looks absolutely stunning. The kind of setups you're doing deserve to be shown properly.

Here's what I noticed: your catalogue lives in a WhatsApp link. For someone planning a wedding or corporate event — usually months in advance and comparing 5 or 6 suppliers — a WhatsApp catalogue is easy to overlook. A competitor with a proper website showing a photo gallery, package list, and "Request a Quote" form looks more established and gets the call first. Not because their work is better — just because they look more set up.

We build decor and events portfolio websites — full gallery, hire catalogue, package descriptions, quote request form, and Google visibility. R8,000 once-off, live in 1–3 weeks.

Can't do it all now? R3,000 to get started, then R2,750 x 2 over 2 months. Work kicks off the day the deposit lands — and the site goes offline if a payment is missed, so we keep each other accountable.

Can I show you a 10-minute mock-up of what a decor website looks like? No pressure — just to give you the picture.

LEAD 6 — EZASEMBO PHOTOGRAPHY

6,200 followers | Event & traditional wedding photographer | Durban

Contact	Facebook DM
Facebook	facebook.com/MHLELI35
Location	Durban
Service	Event photography, traditional events, weddings
Gap	No website. A photographer with no portfolio website in 2026 is losing bookings to photographers with basic Wix or WordPress sites. Clients search "wedding photographer Durban" — they need to see your work, your packages, your prices, and a booking form without going to Facebook.
Best channel	Facebook DM

□ FACEBOOK DM — COPY & PASTE

Hi Mhleli ▫ I'm Andile from Proaxis Solutions, a digital agency in Durban.

I came across Ezasembo Photography on Facebook – 6,200 followers and your work on traditional events and weddings is clearly respected. That following took real work to build.

Here's the honest truth though: when couples in Durban search "wedding photographer" or "traditional event photographer Durban" on Google, you're not showing up. There's no website, no portfolio they can browse, no packages page, no booking form. They find photographers who have basic websites – even plain ones – and those are the calls they make.

A photography portfolio website gives you: a gallery of your best work, a packages and pricing page, a contact/booking form, and Google discoverability – so clients find you before they even get to Facebook.

R8,000 once-off, live in 1–3 weeks. Or 3 payments: R3,000 now to start, then R2,750 x 2. Work starts immediately on deposit – if payments stop, work stops. Simple.

I'd love to put together a quick preview of what an Ezasembo Photography website could look like. Can we connect for 10 minutes this week?

Location	Mezzo Street, Kanyamazane, Mbombela, 1214
Confirmed pricing	Sunday Meat Platter for 2 — R150
Gap	No website. Only 3 Google reviews. Pricing buried in post captions. Customers must scroll + DM to order. Not findable on Google. Proaxis works remotely — 100% doable.
Best channel	WhatsApp

WHATSAPP MESSAGE — COPY & PASTE

Hi Neighbours Grillhouse ▫ I'm Andile from Proaxis Solutions – digital agency based in Durban, we work with restaurants and businesses across SA remotely.

I came across your Facebook page – that Sunday Meat Platter for 2 at R150 is a genuinely great deal and your food looks amazing. 5,200 followers shows people love what you're doing.

Here's the thing: your full menu only exists in individual post captions. Someone who wants to eat at your restaurant tonight has to scroll your whole Facebook page just to see what's on the menu, then DM to order or confirm. That's friction – and it's costing you customers who go somewhere else because it was easier.

A restaurant website fixes this: full menu with prices in one place, your operating hours, a WhatsApp order button, and Google Maps visibility so people in Mbombela searching "restaurant near me" actually find you.

R8,000 once-off – we work remotely, no need to meet in person. Or split it: R3,000 deposit to start, then R2,750 x 2. Work starts the day the deposit clears. Site goes offline if a payment is late – we keep it clean and simple.

Worth a 10-minute call? I can prep a mock-up of your menu page before we even speak.

LEAD 8 — ASH'S NAIL BAR (Ashthika Lutchman)

Active Facebook presence | Nail studio + training | Durban

Contact	Facebook DM: facebook.com/nails.by.ash.lutchman
Location	Tipstone Place, Durban
Service	Nails, nail training for other techs
Gap	No website. Personal Gmail used for business. No booking system. Runs nail training too — a training enrolment page would be huge for that offering.
Best channel	Facebook DM (as Proaxis Solutions page)

□ FACEBOOK DM — COPY & PASTE

Hi Ashthika ◻

I'm Andile from Proaxis Solutions – a digital agency in Durban. I came across Ash's Nail Bar while looking into nail studios in the area.

8 years of experience across Durban and Johannesburg, and you're also training other nail techs – that's a full business, not just a side hustle. The training side especially is something not many nail artists offer, and it's a strong differentiator.

Here's what I noticed: all of that lives on a Facebook page and a personal email. There's no website, no booking system, no training enrolment page. For someone looking to book a nail appointment OR enrol in nail training, they have to find your Facebook, DM you, wait for a reply, confirm everything manually. That's a lot of your time spent on admin that a website handles automatically.

What we'd build: a services + pricing page, a booking/enquiry form for appointments, a separate section for your nail training (with an enrolment form), and a professional email (@ashsnailbar.co.za instead of Gmail). All live in 1-3 weeks.

R8,000 once-off. Or we split it: R3,000 upfront to start, then R2,750 x 2 over 60 days. No payment = no work – we keep it accountable on both sides.

Would you be open to a quick call this week? I'd love to put together a mock-up showing what the training enrolment page could look like – I think you'd be surprised how much it could change things.
